Protect and grow your business in the Q-Trust™.

- **Current quality control and compliance methods are costly and ineffective**

- **There are no universal best practices for SOPs and QMSs**

- **Lab reports, COAs, and other critical documents are unreliable**

In highly regulated industries such as cannabis, CBD, hemp, supplements, and nutraceuticals, trust and credibility are non-negotiable. Until now, there have been no reliable solutions to gain total control over the information you need to achieve quality, compliance, and excellence.

Problems are inevitable. The solution is in Qredible®

Meet Q-Trust™.

Q-Trust™ Information Request Form

Q-Trust™ is the only comprehensive cloud-based quality management system designed to help high-risk industries elevate and digitize their quality management.

AI- and blockchain-powered quality management system	24/7 regulatory compliance analysis and alerts	Best practice identification and recommendations tailored to your specific operation

Q-Trust's suite of integrated modules helps high-risk enterprises manage every aspect of their quality processes:

- Quality Planning
- SOP Authoring and Review
- Document Control
- Compliance/CAPA Management
- Supplier Quality Management
- Customer Feedback and Complaint Handling

- Employee Training & Competence
- Audit Management
- Vendor Management
- Lab and Certificate of Analysis Management
- Recall Management
- Supplier Portal

The platform streamlines quality processes, ensures compliance, and drives continuous improvement across your organization.

Get In Qredible®.

"It's critically important that all CBD, hemp, and cannabis associations, along with companies that deal with consumables have access to this platform."

~ Kelly Ann Bortman, President and Founder at Covalent
