Blazing fast contracts

Elevate contracting with SpotDraft AI

Let SpotDraft AI handle the mundane, freeing up time for you to focus on high-impact, strategic projects.

- * Auto-create templates for your high-volume contracts
- * Complete hours of due diligence and audits in minutes
- * Auto review contracts against your company's internal guidelines
- * Extract key metadata faster with Smart Data Capture

The fastest way to create, manage, and e-Sign contracts effortlessly

Centralized repository

Search for specific contract clauses and languages by simply entering relevant keywords

Contract templates

Set up self-serve templates that are compliant, cutting the need for constant legal involvement.

Contract review

Speed up contract reviews with real-time collaboration and pre-configured approval workflows

Microsoft Word editor

Boost productivity with advanced contract review via our Microsoft Word integration

e- Signatures

Eliminate the need for a separate e-sign solution with our fully compliant, all-in-one platform

Clickthrough

Secure contract acceptance for high-volume contracts such as Privacy Policies and Terms of Use

Integrations

Effortlessly work on contracts directly from platforms such as Salesforce, Hubspot and Jira

Contract analytics

Identify contract bottlenecks, optimize turnaround, and track legal KPIs proactively

Reporting

Easily generate custom reports to identify trends and risks across your contract portfolio

SUCCESS STORY

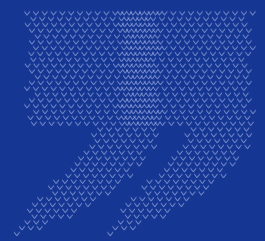

SpotDraft powers contracting at Entertainment Benefits Group (EBG)

SpotDraft streamlined EBG's contract management, granting their business teams greater autonomy and reducing legal team dependency. This shift allowed the legal department to focus on complex legal issues, while business teams efficiently managed and expedited compliant contracts.

"Entertainment Benefits Group's top priority while implementing SpotDraft is to provide more autonomy to our business teams and free up bandwidth for our legal team".

Jacqueline Cornell,
General Counsel, Entertainment Benefits Group

ebg

Security & compliance:

All data on SpotDraft is encrypted in transit (using TLS 1.2 or higher) and at rest (through AES-256). Additionally, we conduct vulnerability and penetration testing every 6 months to proactively identify and remediate any security vulnerabilities in our system.
