X1 Search

Search Emails, Files, Cloud File Shares and SharePoint in Seconds

X1 Search[™] is an award-winning search and productivity application that provides users the fastest, simplest way to find and work with the exact information they need and thought they would never find again.

X1 Search simplifies the way business professionals search and act upon desktop files, cloud file shares, emails, attachments, SharePoint and more. X1's single, unified interface and fast-as-you-type search with hit highlighting and full-fidelity preview of results provides immediate visibility into the critical information you need. More often than not, you may forget file names or whether a critical document is stored on a local drive, in SharePoint or on a Network File Share, but if you remember the email contents or keywords throughout the file, X1 can quickly and easily retrieve your result in just a few keystrokes.

X1 Search provides the flexibility necessary for today's remote and globalized workforce. Whether you're working on your office desktop or at home on a laptop, X1 Search will find and let you act on critical documents regardless of where you or your data reside.

Benefits

Enables Business Productivity
