The Building Blocks to Grow Your Business.

Top Rated Cloud Accounting System

Xledger is the number one rated cloud accounting system, powering over 21,000 businesses worldwide. With a 98% retention rate, you know you are making the right decision when you choose Xledger.

The Most Innovative System

Xledger is privately owned, meaning we can consistently push the bounds of innovation. With best-in-class OCR, machine learning, reporting, AI, multi-entity, multi-currency, and so much more, when you choose Xledger, you get a system that is upgraded multiple times a year and influenced by you, the customer, not the shareholder.

The FIRST Cloud Accounting System

Xledger was built in the cloud in 2000, meaning that we have been doing cloud accounting longer than any other system out there. So you don't need to worry about implementation or capabilities because we were first and have a proven track record of doing it best.

Xledger

Workflows

Automation that will get your life back.

At Xledger, we offer a cloud-based finance software that revolutionizes the efficiency and accuracy of financial management across organizations. Our workflows are crafted with a focus on automation, streamlining critical financial processes like invoicing, bank reconciliation, and reporting. This automation liberates finance teams from mundane tasks, allowing them to dedicate more time to strategic initiatives while minimizing the risk of human error and boosting productivity. Our platform ensures that every financial decision is made based on the most current data available, promoting transparency and informed decision-making throughout the organization.

We pride ourselves on the configurability of our workflows, which allows businesses to customize processes to meet their specific requirements. This adaptability is essential for compliance with diverse regulatory frameworks and scaling operations, from small businesses to multinational corporations. Xledger seamlessly integrates with existing systems, ensuring a cohesive financial management approach. By enabling customization of workflows, we enhance user experiences, accommodate unique business needs, and maintain rigorous control over financial operations. Our commitment to securing sensitive data and adhering to industry standards positions us as a trusted partner in financial management.

Dashboard and Reporting

The insight you need to drive the growth you envision.

Your business needs insight. Whether it's into your customers, various market opportunities, or the ever-changing marketing - you need the right tools to make the wise decision.

Configurable Personalized Dashboards

Every user needs dashboards tailored to their needs. With Xledgler, you can configure dashboards to meet your roles' needs. From your board of directors to your office manager, we have the dashboards for you.

Drill Down and Drill Through All Your Data

Drill down and through your dashboards and reports within Xledger. You'll never have to export and leave the system again. Giving you insight at the palm of your hands - giving you peace of mind to make the decisions your organization needs.

Customizable Reports Tailored to Your Needs

Use Xledger's Report Writer (XRW) to build reports the way you want. Your business is unique, meaning your reports are unique. Delivery reports to people directly inside our outside of Xledger through automatic workflows.

Billing

The last billing solution your business will need.

Our billing solutions are designed to simplify and streamline the billing process for businesses of all sizes. We understand the importance of accurate and efficient billing, so our cloud-based system automates much of the process, reducing manual input and minimizing errors. This automation ensures invoices are generated promptly and sent to customers without delay, improving cash flow and reducing the administrative burden on staff.

Our system supports complex billing scenarios, including subscription-based models, one-time transactions, and usage-based billing, making it highly versatile across various industries. Xledger allows for detailed customization of billing parameters, which can be tailored to meet each client's specific needs, ensuring compliance and satisfaction. Furthermore, our real-time reporting capabilities provide businesses with immediate insights into their billing operations, enabling proactive management and decision-making. By integrating seamlessly with other financial functions within Xledger, our billing solutions offer a comprehensive approach to managing finances, enhancing overall operational efficiency.

"There is no doubt that Xledger has streamlined our closing and financial reporting process. We close monthly on day 5, something which would not have been remotely achievable with Xero."
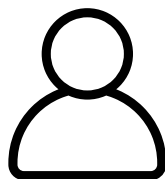

-Einar, 60 Decibels

Industries

Xledger is being used by over 21,000 companies in 70 countries. No matter what industry you are in, Xledger is the solution for you because we have been building it for you for the past 24 years.

Commercial Real Estate
"The structure in Xledger gives financial clarity to the whole group, while at the same time, I can drill down into the details of individual companies. The subscription invoicing works so well that I forget we send out invoices."
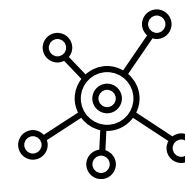

-Finn, Beliggenhet Holding Group

Non-profits
"Automated bank reconciliation has also been huge and really helpful. We have saved over 80 hours in accounting per month."

-Farooq, Helping Hands Relief & Development

Professional Services
"With Xledger, we can cater to a larger, more complex client base and provide a better service at the same time. The software is undoubtedly a true asset to business process outsourcers."

-Rob, Accurise

Industries Cont.

With over 100,000 active daily users. Xledger has a retention rate of 98% - meaning when you choose Xledger, you know you are in good company and now you are making the right choice.

Oil, Gas, and Energy
 "If we had gone with Oracle, we would still be in the implementation preparation instead of live on the system. Xledger is so easy, I impress myself when I use it."

-Ben, Fontis Energy

Education
"Total cost of ownership for a true cloud solution is a key feature of Xledger and its ease of use. There are a lot of colleges that could benefit out there."

-Jim, Swindon College

SaaS & Technology
"We have greatly simplified our internal management with Xledger. The administration of internal transactions and internal invoicing saves both time and resources."

-Sofie, Arise
